
Atlante strengthens its ESG performance for the third consecutive year in the GRESB Infrastructure Assessment

Overall score reaches 97.5/100, with a 4-star rating and full marks in Environmental and Social performance

Milan, XX October 2026 – Atlante, a leading fast and ultra-fast charging network for electric vehicles in Southern Europe, has successfully completed the **GRESB Infrastructure Asset Assessment for the third consecutive year**, achieving an overall score of **97.5 out of 100** and confirming its **4-star rating**.

The 2026 result marks a further improvement in Atlante's ESG performance and confirms a **three-year journey of continuous measurement and progress**. This year, the company achieved **full marks in both the Environmental (23/23) and Social (52/52) categories**, alongside a **Governance score of 22/24**.

Atlante's overall performance once again stands **above the GRESB average**, confirming the company's continued progress in integrating Environmental, Social and Governance principles into its strategy and operations and representing a further step in its long-term sustainability roadmap.

GRESB, the world's leading benchmark for evaluating ESG performance in infrastructure and real estate, provides an independent and transparent assessment based on internationally recognised standards, including the United Nations Sustainable Development Goals (SDGs). This was also the framework used to communicate Atlante's previous GRESB results.

*"Three consecutive years of GRESB assessment give us something particularly valuable: the opportunity to measure our progress over time," said **Giovanni Bonelli, Global Head of HSEQ & Sustainability at Atlante**. "Reaching 97.5 out of 100, with full marks in both Environmental and Social performance, is an important recognition of the work carried out across Atlante. At the same time, sustainability is a journey of continuous improvement, and this result motivates us to keep raising the bar as our network and our company continue to grow."*

For Atlante, sustainability is part of its DNA. Every Atlante station provides drivers with **100% certified renewable energy** and, where possible, is equipped with photovoltaic panels and integrated energy storage systems. This combination allows Atlante to promote a sustainable and resilient charging ecosystem, contributing to the decarbonisation of transport and supporting the energy transition across Southern Europe.

Through its third consecutive GRESB assessment and its improved 2026 performance, Atlante reinforces its commitment to continuously measuring and improving its ESG impact, while advancing its mission to create shared value for communities, the environment and all its stakeholders.

Atlante

At Atlante we develop EV charging stations to enable the transition towards zero-emission: empowering people to move freely in harmony with the planet. We are building Southern Europe's largest fast and ultra-fast charging network, powered 100% by renewables. Since our launch in Italy in 2021, we serve EV-drivers at our 1,200 stations across Italy, France, Spain, Portugal and Switzerland.

We believe in progress, leveraging on cutting edge technology to accelerate the electric mobility revolution – especially with energy storage to enhance power from the grid. We are proud of our digital platforms that ensure ease of use and full connectivity. We are Atlanters: a group of passionate and dedicated people always thriving to deliver a reliable service and enjoyable experience to our customers.

As a fully owned company of TCC Group Holdings (Taiwan's first public-listed company), we strongly believe in partnerships to pursue our mission. We are trusted by partners who own or manage key infrastructures like airports, highways, service stations, shopping centers and supermarkets.

Under the program the Alternative Fuel Infrastructure Facility (Connecting Europe Facility- CEF Program), the EU awarded us close to €90m of grants under four projects to accelerate electrification on Europe's major traffic arteries and we gathered financing support from France's Groupe Caisse de Dépôts and Italy's Cassa Depositi e Prestiti.

We are Atlanters and you can count on us.
